		<b>BBC Weather</b>	<b>Met Office</b>	<b>AccuWeather</b>
Current location	Time Taken (secs)	3	13	3
	Comments	Big cloud icon easy to see. Can see temperature easily. Very local	Very local, to the street. Clear temperature. Percentages of weather warnings. Opportunities for video weather	Easy to see. See humidity. All info in one box, easy to see. Clear information. Text is easy to read. Allergy information. Useful for any age
Check other locations weather	Time Taken (secs)	13	25	60
	Comments	Clear, quick to get to. Temperature ah changes fast. Given weather forecast for next few days	Lot of inoormation. Not very clear. Have to look closely. More information than other apps. Adverts on page. Have to scrll past adds to see information. Can see air pollution. Too much information. Option to see other days	Wasn't as easy to change. Hard to understand. Had to go into setting to see it. Wasn' as clear or straightforward. Clear information. Can click in to get further, more detailed information
Forecast for near future	Time Taken (secs)	2	2	6
	Max days	4	5	14
	Comments	Breif overview. When clikced more information is available. Sunrise and sunset times	Overview of each day. Different colours for different segments. Lots of colours used, almost too mahy. Lot of information	Good range of days. Helpful to have long-term forecast. Can see hourly or daily. What weather to expect. Temperature.
Toggle between C/F	Time Taken (secs)	DNF	DNF	6
	Comments	Was not able to find way to change between two measurements.	Small icon for settings in corner hard to see. Could not find option or settings	Easy to do. Same information apart from temperature change.
Extra Comments		Background picture changes to show weather. Can compare and contrast from previous day and next day. Hard in-app navigation.	Ads coming on screen, very annoying.	Good In app navigation. Good colour contrast and use of colours. Ads are annoying. Not too much information. Looks good. Bright. Clear background.

Would choose AccuWeather
